

# Assisted Dying for Terminally Ill Adults (Scotland) Bill

## Introduction

A proposal for a Bill to enable competent adults who are terminally ill to be provided at their request with assistance to end their life.

The consultation runs from 23 September 2021 to 22 December 2021.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (\*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

[Privacy Notice](#)

I confirm that I have read and understood the Privacy Notice attached to this consultation which explains how my personal data will be used.

On the previous page we asked you if you are UNDER 12 YEARS old, and you responded Yes to this question.

If this is the case, we will have to contact your parent or guardian for consent.

If you are under 12 years of age, please put your contact details into the textbox. This can be your email address or phone number. We will then contact you and your parents to receive consent.

Otherwise please confirm that you are or are not under 12 years old.

*No Response*

## About you

Please choose whether you are responding as an individual or on behalf of an organisation.  
Note: If you choose "individual" and consent to have the response published, it will appear under your own name. If you choose "on behalf of an organisation" and consent to have the response published, it will be published under the organisation's name.

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Professional with experience in a relevant subject

**Optional: You may wish to explain briefly what expertise or experience you have that is relevant to the subject-matter of the consultation:**

Specialist Nurse

Please select the category which best describes your organisation

*No Response*

Please choose one of the following:

I am content for this response to be published and attributed to me or my organisation

Please provide your Full Name or the name of your organisation. (Note: the name will not be published if you have asked for the response to be anonymous or "not for publication". Otherwise this is the name that will be published with your response).

Anne Thomson

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number.

We will not publish these details.

**Aim and Approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").**

Q1. Which of the following best expresses your view of the proposed Bill?

Fully supportive

Q1. Which of the following best expresses your view of the proposed Bill?

**Please explain the reasons for your response.**

I have long been a supporter of a persons right to determine their own life and death. I have witnessed too many painful, distressing deaths, where suffering could have been avoided.

Q2. Do you think legislation is required, or are there other ways in which the Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Legislation is required to protect the people involved and to ensure malpractice does not occur.

Q3. Which of the following best expresses your view of the proposed process for assisted dying as set out at section 3.1 in the consultation document (Step 1 - Declaration, Step 2 - Reflection period, Step 3 - Prescribing/delivering)?

Fully supportive

**Please explain the reasons for your response, including if you think there should be any additional measures, or if any of the existing proposed measures should be removed. In particular, we are keen to hear views on Step 2 - Reflection period, and the length of time that is most appropriate.**

I think the reflection time could be shorter, I liked the idea of an organisation to oversee the process

Q4. Which of the following best expresses your views of the safeguards proposed in section 1.1 of the consultation document?

Fully supportive

**Please explain the reasons for your response.**

Safeguards need to be explained to the person and those closest to them and the care staff involved.

Q5. Which of the following best expresses your view of a body being responsible for reporting and collecting data?

Fully supportive

**Please explain the reasons for your response, including whether you think this should be a new or existing body (and if so, which body) and what data you think should be collected.**

This is reassuring, it makes people more accountable and information can also be used for audit and monitoring

Q6. Please provide comment on how a conscientious objection (or other avenue to ensure voluntary participation by healthcare professionals) might best be facilitated.

HCP, should be allowed to opt out of the care of the person, they should have all the documentation shown to them to make them aware it is the individual who has chosen this option.

## Financial Implications

Q7. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

no overall change in costs

**Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.**

The cost of long term care and palliative care is huge, not just financial but emotional, social and personal. Shortening a life will reduce costs of all aspects of care, medication, equipment, spare people ongoing pain, distress. The personal costs of watching someone suffer are incalculable.

## Equalities

Q8. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Positive

**Please explain the reasons for your response. Where any negative impacts are identified, you may also wish to suggest ways in which these could be minimised or avoided.**

We have control of every aspect of her life, we are given choices at time of giving birth, we can make decisions our sexual choices, or lifestyle choices, financial choices, we have such limited choice at end of life, we need to improve this and let people decide for themselves.

## Sustainability

Q9. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy
- promoting effective, participative systems of governance
- ensuring policy is developed on the basis of strong scientific evidence.

With these principles in mind, do you consider that the Bill can be delivered sustainably?

Yes

**Please explain the reasons for your response.**

I have worked with people with terminal cancer and people with incurable conditions, MS, HD and MND, I have had many conversations about control at end of life, assisting a person who wants to die. A strong society should be able to help people achieve their wishes.

## General

Q10. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

This bill needs to happen to allow people to have control, to not allow it turns friends and family members into criminals rather than carers. People can suffer for years in pain, distress, in undignified demoralising situations.

I am happy to support this bill in any way I can and would be happy to share my experiences.
