

# Assisted Dying for Terminally Ill Adults (Scotland) Bill

## Introduction

A proposal for a Bill to enable competent adults who are terminally ill to be provided at their request with assistance to end their life.

The consultation runs from 23 September 2021 to 22 December 2021.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (\*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

Q1. Which of the following best expresses your view of the proposed Bill?

Fully opposed

Q1. Which of the following best expresses your view of the proposed Bill?

**Please explain the reasons for your response.**

Quite simply I am against any such bill. The Holy Bible states that God's commandment is, "Thou shalt not kill." Exodus 20.13. This is explained in The Shorter Catechism. "The sixth commandment requireth all lawful endeavours to preserve our own life, and the life of others."

One came and said unto Jesus, "Good Master, what good thing shall I do, that I may have eternal life?" In his reply Jesus said to the man, "If thou wilt enter into life, keep the commandments." He asked Jesus which? Jesus in his reply included in what he said, "Thou shalt do no murder." Matthew 19.16-18.

Later in the New Testament we are taught "the works of the flesh are .... murders ..... they which do such things shall not inherit the kingdom of God."

Assisted dying is murder! Please remove any thought of such a Bill in our land.

Q2. Do you think legislation is required, or are there other ways in which the Bill's aims could be achieved more effectively? Please explain the reasons for your response.

No such bill ought to be considered.

Q3. Which of the following best expresses your view of the proposed process for assisted dying as set out at section 3.1 in the consultation document (Step 1 - Declaration, Step 2 - Reflection period, Step 3 - Prescribing/delivering)?

Fully opposed

**Please explain the reasons for your response, including if you think there should be any additional measures, or if any of the existing proposed measures should be removed. In particular, we are keen to hear views on Step 2 - Reflection period, and the length of time that is most appropriate.**

No such bill should be brought forward. It is against God's commandment. The way of blessing is to obey God's commandments.

Q4. Which of the following best expresses your views of the safeguards proposed in section 1.1 of the consultation document?

Fully opposed

**Please explain the reasons for your response.**

If there is no bill then there is no need for further consultation.

Q5. Which of the following best expresses your view of a body being responsible for reporting and collecting data?

Fully opposed

**Please explain the reasons for your response, including whether you think this should be a new or existing body (and if so, which body) and what data you think should be collected.**

The proposed bill is wrong. No consultation required. Full stop.

Q6. Please provide comment on how a conscientious objection (or other avenue to ensure voluntary participation by healthcare professionals) might best be facilitated.

Provide clear statements of what the Holy Bible declares. After all this is the very foundation of Scotland since the Reformation. We ought not to be ashamed to emphasize this in our day.

## Financial Implications

Q7. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

don't know

**Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.**

Cost should never be a consideration. We are to endeavour to preserve life at all costs.

## Equalities

Q8. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

**Please explain the reasons for your response. Where any negative impacts are identified, you may also wish to suggest ways in which these could be minimised or avoided.**

It is not to do with equality but to do with what is right in the sight of God.

## Sustainability

Q9. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy
- promoting effective, participative systems of governance
- ensuring policy is developed on the basis of strong scientific evidence.

With these principles in mind, do you consider that the Bill can be delivered sustainably?

**Please explain the reasons for your response.**

This matter has no relevance to what is right (or wrong).

## General

Q10. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

I have stated my opinion in the answers given.
