

# Assisted Dying for Terminally Ill Adults (Scotland) Bill

## Introduction

A proposal for a Bill to enable competent adults who are terminally ill to be provided at their request with assistance to end their life.

The consultation runs from 23 September 2021 to 22 December 2021.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (\*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

Q1. Which of the following best expresses your view of the proposed Bill?

competent had expressed a clear wish not to end up in a care home losing or have lost their cognitive abilities, others preferring to have peace away from the chronic pain. In all occasions there was nothing legal in the UK that I or other close friends and family could do to end the suffering. I believe this to be barbaric and fully support any move to allow assisted dying for adults who request or have previously requested this as an end of life option.

Q2. Do you think legislation is required, or are there other ways in which the Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Legislation is required to ensure that controls are in place and that individuals are not liable to prosecution.

Q3. Which of the following best expresses your view of the proposed process for assisted dying as set out at section 3.1 in the consultation document (Step 1 - Declaration, Step 2 - Reflection period, Step 3 - Prescribing/delivering)?

Fully supportive

Q4. Which of the following best expresses your views of the safeguards proposed in section 1.1 of the consultation document?

Partially supportive

**Please explain the reasons for your response.**

Adults should be able to complete a request for assisted dying prior to onset of illness, rather being restricted to at the time of illness. The option should be available to dementia and similar patients who have completed the request whilst mentally competent.

Q5. Which of the following best expresses your view of a body being responsible for reporting and collecting data?

Unsure

Q6. Please provide comment on how a conscientious objection (or other avenue to ensure voluntary participation by healthcare professionals) might best be facilitated.

no overall change in costs

What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Other than ensuring a strong and healthy community what is the point of this question?
